KLUBOVŇA

**THE STORY OF OUR BEERS.
BEERS CAN BE FIND EXCLUSIVELY
IN KLUBOVŇA.**

Zlatý Bažant '73 unfiltered tank beer

Zlatý Bažant '73 is an extraordinary lager inspired by the oldest preserved brewing recipe of the Zlatý Bažant beer dated April 16, 1973. This twelve-degree light lager is brewed by the decoction mashing method with two mashes using barley malt from its own malthouse, hop from the Žatec region and special yeast. It is characterized by an extremely long brewing process, lasting up to 6 weeks.

Exclusively in our Klubovňa, you can enjoy its unique unfiltered version directly from the tank. The freshest beer is transported in special beer tanks from Hurbanovo directly to you, which is the reason why it tastes like drinking it directly in the brewery. Enjoy a full beer flavour with a rich creamy foam and a pleasant, higher bitterness, which develops completely after drinking and will last a medium-long time.

Klubovňácka 11°

A golden colour with amber reflections, a rich creamy foam, a pure hop flavour, and a medium-sized malt flavour with a harmonious bread-bitter finish. This is our beer Klubovňácka 11°. The eleven-degree beer into which we have put our Klubovňa soul. The beer we have been dreaming of since the first Klubovňa was prepared and which we have brewed according to our own tuned recipe together with you, our customers. You have loved it since the first day and we believe that you will like it for a very long time.

Brüder 13° Session IPA

It addresses those lovers and explorers of top-fermented beers who are at the beginning of their journey to untraditional beer styles. This beer is proudly the member of the India Pale Ale family and is characterized by its unique hop flavour with a clear undertone of citrus fruit fragrance. Thanks to the technology of cold wort boiling with the unique hop varieties Cascade and Citra, it has a complex aroma and the beer bouquet is significant as well. The 13% volume of the extract in the original wort defines the beer body to a middle level with a very decent presence of typical IPA bitterness, which remains in the mouth for a relatively long time after drinking. A lower alcohol content of 4.8% puts it in the category of more easily drinkable beers.

*Cheers
folks!*

10 good reasons to drink beer!

1. IT PROTECTS YOU FROM HEART ATTACK

It is proven that beer drinkers regularly have a 60 percent lower probability of suffering a heart attack compared to non-drinkers. Beer consumption in the right amount helps minimize fat build-up in veins.

2. IT DECREASES THE RISK OF A STROKE

Ingredients in beer help prevent red blood cells from clumping and thus prevent the creation of blood clots. Therefore those lucky ones who drink one 10-degree beer a day cut the risk of suffering a stroke by up to 50%!

3. IT IMPROVES APPETITE

Bitter components in hops speed up the movement of matter in the digestive tract and thus improve appetite. The so called "beer belly" is not caused by beer itself but most probably by the later fridge robbery.

4. IT HELPS LOWER BLOOD PRESSURE

Moderate beer consumption may, according to Dutch doctors, help lower high blood pressure. Of course, excessive beer drinking has the exact opposite effect and leads to heart disorders.

5. IT IMPROVES MEMORY

According to an American study, beer drinkers are less likely to suffer from Alzheimer's disease than those who don't indulge in consuming this beverage.

6. IT HELPS WITH WEIGHT LOSS

Beer contains the fewest calories right after water and tea. Half a liter of beer has 190 calories while the same amount of apple juice contains 240 calories. It is not true that beer makes people gain weight. However, its consumption should not be excessive.

7. IT MAKES LIFE LONGER

When sticking to recommended beer consumption amount (1-2 glasses a day), the level of good cholesterol in blood rises. Good cholesterol helps protect us from heart diseases and prevents us from arteriosclerosis. Many studies have proven that beer drinking prolongs life.

8. IT CLEANS KIDNEYS

When it comes to kidneys, beer is more effective than drinking urological tea. Beer is considered to be great prevention of kidney stones.

9. IT ACTS AGAINST STRESS

Another interesting finding by scientists from Montreal University states that beer drinkers are less likely to suffer from stress compared to non-drinkers.

10. IT IMPROVES SKIN

B vitamins and acids contained in beer boost metabolism and regenerate skin. This increases the production of collagen and pigment.
